

Spill Response Procedure

1. Determine severity, size and source of spill.
2. If the spill is determined to be a threat to the environment outside the building, follow the call procedure as follows:

Barrie Fire Department	* 911 *
MOE 24 Hour Spills Action Centre	1 800 268-6060
CANUTEC	1 613 996-6666

3. During non-business hours, the 24 hour alarm service (ADT) has a priority call sequence as follows:

Andrew Harvey	General Manager	(905)294-1899
	Mobile	(416) 708-7244
Colin Hurst	Plant Operations	(705) 835-2342
Fire Department		911

4. If the spill is contained and controllable:

Suit up appropriate PPE located in locker. Locate and terminate source. Distribute spill containment materials as required. Pump or vacuum spill into suitable containment. Perform necessary repairs to verify source termination.

5. Record details of spill and repair status in Waste and Maintenance logs.
